

Report on **Nasha Mukti Abhiyan**

On July 21, 2026, the National Service Scheme (NSS) unit of Government Engineering College, Dahod, organized a dedicated "Nasha Mukti" (Substance Abuse Awareness) Programme aimed at educating students on the dangers of addiction and advocating for a drug-free lifestyle. The event featured an insightful awareness lecture delivered to the participating college students, which highlighted the physiological, psychological, and social ramifications of substance abuse, alongside practical strategies for overcoming peer pressure. To reinforce the message and provide a deeper visual impact, the session was complemented by educational video screenings that depicted real-life case studies, the science behind addiction, and the pathway to recovery. Through this combination of interactive discourse and visual learning, the programme effectively sensitized the students, encouraging them to maintain a healthy lifestyle and act as active ambassadors for addiction awareness within the campus community.
